IDEAS FOR GAMES

Around the globe : (2 players minimum).

The children form a circle (if there are only two players, they can form a line). One child goes in the middle of the circle. The youngest of the players on the outside of the circle picks up the globe and throws it to the person in the middle. When they catch it, they must keep their hands in the same position on the globe, so that the globe doesn't move. The person holding the globe must then think up a question about the continent, country, animals, capital city, ocean, sea, border, meridian… that they are touching with their hands, and ask this question to the person who threw them the globe. If the question is answered correctly the player wins a point and takes the place of the person in the middle of the circle. Then the next player throws the globe to the player in the middle. The game is played in a clockwise direction and the first player to get 3 points wins !

Keep away from the globe : (4 players minimum).

This game is based on the classic game "dodgeball". Children get into two teams in a well-defined area divided into two equal parts. Both teams throw the globe, aiming to hit a player on the other team :
- if the globe doesn't hit any player and falls outside the other team's designated area, the ball continues to be thrown as before.
- If a player on the other team gets the ball (within the designated area) this player then throws the ball back to the person who threw it at them, who must then ask them a question about the area of the globe in which their hands are positioned. If the player responds correctly to the question, they win a point for their team. If the answer is wrong, the game continues as before.
- If the globe falls to the ground on the other team's designated area and no member of the other team gets it, the team that threw the ball is given the chance to answer a question about the globe and wins a point. The first team that gets 5 points wins !

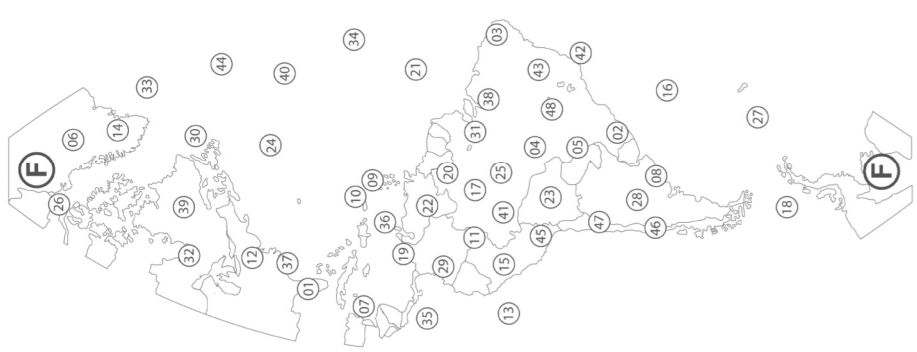
Green section F : South America - Atlantic

Alligator	1
American rhea	2
Anaconda	3
Anteater	4
Armadillo	5
Baby seal	6
Boa	7
Capybara	8
Centipede	9
Common coqui	10
Cougar	11
Coyote	12
Crab	13
Greenland dog	14
Hairless dog	15
Hammerhead shark	16
Hoatzin	17
Icefish	18
Iguana	19
Jaguar	20
Jellyfish	21
Leech	22
Llama	23
Mackerel	24
Mygale spider	25
Narwhal	26
Octopus	27
Pampas cat	28
Pelican	29
Pilot whale	30
Piranha	31
Porcupine	32
Porpoise	33
Saint-Pierre fish	34
Sawfish	35
Scarlet ibis	36
Sea cow	37
Sloth	38
Snowy owl	39
Spider crab	40
Tapir	41
Tiger-striped catfish	42
Toucan	43
Tub gurnard	44
Vampire bat	45
Vicuna	46
Vizcacha	47
Yacare caiman	48



Purple section E : Canada - USA - Mexico

Ancient murrelet	1
Beaver	2
Berardia	3
Bison	4
California condor	5
Coral	6
Deep sea anglerfish	7
Dragonfly	8
Elk	9
European bullhead	10
Evening grosbeak	11
Fallow deer	12
Flying squirrel	13
Great blue heron	14
Grizzly bear	15
Groundhog	16
Guppy	17
Hermit crab	18
Herring	19
Hummingbird	20
Macaw	21
Masked booby	22
Monarch butterfly	23
Moorish idol	24
Muskrat	25
Napoleon wrasse	26
Ocean sunfish	27
Otter	28
Oyster	29
Parrotfish	30
Quetzal	31
Racoon	32
